

IN THE SPECIFICATION

Please replace the paragraph at page 25, lines 3-6, with the following rewritten paragraph:

Informed of the successful ~~failure~~ in file system mounting in step S32, the data base layer 43 issues a command for acquisition of a file attribute that can only be acquired from the file system (Get File Attribute ("file #1") ...) (steps S33-1, S33-2, ...) and acquires the information.
